THE South-Carolina Gazette.

From MONDAY *September* 25th, to MONDAY *October* 2d, 1749.

LONDON, *June* 13.

This Day his Majesty went to the House of Peers, and gave the Royal Assent to several Bills: After which, his Majesty was pleased to make the following most gracious SPEECH.

My Lords and Gentlemen,

I COME now to put an End to this Session of Parliament, which is become the more necessary, by the advanced Season of the Year.

The Definitive Treaty of *Aix-la-Chappelle* having been, by Me, Order, laid before you several Months ago, you have all been fully informed of the Terms and Conditions on which it was made, and have already had the Satisfaction to see them carried into Execution, by the several Contracting Parties, with great Punctuality and good Faith, so far, as the Time and Distance of Place would admit. Nothing now remains, but to preserve and improve the Peace, so happily re established. All the Powers concerned have declared themselves in so clear, and friendly a Manner on this Subject, as leaves no Room to doubt of Their sincere Disposition to render the Peace lasting in all Parts. My earnest Desire to promote the Welfare of My own Subjects, and the general Tranquility of *Europe*, will make Me exert My Endeavours for the same good End, by steadily adhering to the Engagements I have enter'd into, and cultivating the most perfect Union and Harmony with My Allies, upon whose ready Concurrence in all proper Measures for that Purpose, I have the greatest Reason to depend.

IT is with great Satisfaction I have seen Part of this Session employed in Considerations for advancing the Trade and Navigation of My Kingdoms. I hope at your next Meeting, you will be able to perfect what has now been begun; particularly by taking the proper Methods to render Our Naval Force the most useful and serviceable, which is so essential to the Protection of Our Commerce, and to Our Security, in all Times.

Gentlemen of the House *of* Commons,

I RETURN you My Thanks for the Supplies you have granted Me, and for the Attention you have shewn to maintain the Publick Credit, which I rejoice to see in so flourishing a Condition at the End of an expensive, though necessary War. The Readiness with which you have enabled Me to satisfy the Demands of My Allies, is very agreeable to Me, and cannot fail to produce the best Effects.

My Lords, *and* Gentlemen,

Let Me recommend it to you to improve the Advantages of Our present Situation, for the Quiet and Stability of My Government, and the true Interest and Happiness of My People; and in your several Counties to promote such Principles and Dispositions, as may be most conducive to those desirable Ends.

And then the Lord Chancellor, by his Majesty's Command, prorogued the Parliament to Thursday the 3d Day of August next.

EDINBURGH, June 10.

They write from Glasgow, that on Saturday last, at Eight of the Clock at Night, a Fire broke out in a Back House on the East Side of the Gorbels, which was all in a Flame before the Fire Engines could be brought from the City; the Wind being somewhat brisk from the East, and the Weather dry, the Fire immediately communicated itself to several adjacent Houses, which, in spite of all that could be done by the three Engines, were all on Fire at once. By Twelve o'Clock the whole Breadth of the Town, from East to West, and a long Range on both Sides of the Street from North to South, were all in one united Flame, which caused the most dreadful Scene that has happened in that Place in the Memory of the oldest Person alive. At last, by the Will of the Divine Providence, and the throwing down a Number of Houses, the Fury of the Flames were extinguished.

The Loss cannot as yet be known, but it must be very considerable, about 200 Families being burnt out and dispossessed. Major Wolf, and the other Officers of Lord George Sackville's Regiment, were present all the Time, and were of singular Use, by placing Guards upon the Bridge, and at all the Avenues, to keep off the Crowd, and prevent the stealing of the Effects belonging to the Sufferers. Many of the Soldiers exerted themselves in quenching the Flames, and saving Peoples Lives and Effects.

LONDON, June 8.

The Politicians in Italy have furnished us, by the last Mail, with a Scheme yet more extraordinary than that which was the Subject of their former Dispatches. It seems they are satisfied, that the Royal Infant does not think his new Establishment worth keeping, after all the Blood and Treasure spent to obtain it, and therefore it is now to be disposed of in the following Manner; the Dutchy of Parma is to be given to the Genoese, in Exchange for the Island of Corsica, which will be very convenient for Spain. His Sardinian Majesty, is to have Placentia for a valuable Consideration; and the Duke of Modena, Guastalla as a Recompence for his Losses. As for the Royal Infant, it is to be supposed that he will find an Equivalent of another Kind elsewhere.

Letters by Monday's French mail inform us, that the celebrated M. Maupertuis, chief of the royal academy at Berlin, honoured with the rank of lieutenant general in his Prussian majesty's service, and frequently permitted to dine at his table, had suddenly received orders to quit the dominions of that monarch immediately, and to withdraw all his effects in a limited time.

His majesty has been graciously pleased to make a present of 2000 l. towards the charity of the Foundling hospital.

A barbary rover, with a large number of hands on board, has been taken by one of the pope's galleys, and carried into Civita Vecchia.

London, June 13. Letters from Madrid mention, that several Men of War and Frigates are sailed, in order to cruize in the Mediterranean against the Corsairs of Barbary, and Orders sent to the Commissaries of the Marine to fit out eighteen more Ships of the Line as soon as possible, which 'tis thought are destined for the same purpose.

Thursday last a Number of Brass Cannon, 12 pounders, were shipped off from the Tower Wharff, for Nova-Scotia, in order to secure that Province.

We hear, that in the present critical Situation of Affairs in the North, the Right Hon. the Lord Gower will speedily set out for Stockholm, with the Character of his Majesty's Ambassador Extraordinary to that Court.

'Tis confidently asserted that several Removals will shortly take Place in the Ministry.

London, June 15. It is said that his Royal Highness the Duke intends to make a Tour shortly to Ireland, to review the Regiments on that Establishment.

Last Tuesday died Sir *John Norris*, Knt. Member of Parliament for *Rye* in *Sussex*, and Admiral of *Great-Britain*, the oldest Commander in the Royal Navy, having been in that Service above 50 years.

London, July 25. We hear that Commiſſaries will be ſpeedily appointed by this Court, for regulating, in Concert with thoſe of his Moſt Chriſtian Majeſty, the Limits of *Canada*, *Nova-Scotia*, and *Acadia*; in Conformity to a Memorial preſented by the French Miniſter to the Secretaries of State: Which Reſolution has been communicated by Expreſs to the Britiſh Miniſter at the Court of France.

They write from Algiers, that ſome Overtures have been made to the Conſul of a certain Chriſtian Power, by the Dey, to procure his Mediation for accommodating Matters, ſo as to prevent that Attack, which it is known ſeveral Chriſtian Powers have meditated againſt that City; but that it is very much doubted whether this will have any Effect, becauſe it is ſimply impoſſible if the Regency ſhould conclude a Peace ſhe ſhould continue to maintain it.

By our laſt Letters from Rome we are informed, that the Pretender's Son continued ſtill incognito at Venice, and that the Pope had ſent for the Cardinal his Brother, and prevailed on him to uſe his Intereſt with his Father to endeavour ſo to reconcile Matters, as that he may ſoon return to Rome.

And by our laſt Letters from Liſbon we are informed, that his Portugueſe Majeſty had been ſeized with raving Fits during divine Service, that he was thereupon immediately taken out of Church, and continued extremely ill for ſome Hours after, but when theſe Letters came away, his Majeſty was thought to be much better.

By Letters from Naples of the 8th of July N.S. we have Advice, that a Frigate is arrived there from Spain, with 150,000 *Pioſtres*, being Part of a larger Sum, which is deſtined for building in the Kingdom of Naples ſome Ships of War for the Service of his Catholick Majeſty.

We hear that the Right Hon. the Earl of Granville will ſhortly be appointed one of his Majeſty's Principal Secretaries of State.

We have the following Account very well atteſted by a Gentleman from Milford Haven, viz. That on Sunday the 2d of this Inſtant, about Eleven o'Clock, being near the Time of Low Water, the Sea exceeding ſmooth, and the Weather ſerene and fair, the Inhabitants of Dale, in the ſaid Haven, were alarmed by a ſudden Murmuring of the Water, and to the great Amazement of a Multitude of Spectators, the Tide was obſerved to run up in the Space of one Minute, to High Water Mark, and with the ſame Rapidity to retreat again: This Phænomenon was repeated ſeven Times in about three Quarters of an Hour; the Violence of the Torrent was ſo prodigious, that Boats were forced from their Moorings and turn'd over and over; many People were in danger of being ſwallowed up, but providentially no Lives were loſt.

London, July 27. His Majeſty has been pleaſed to appoint Lieutenant-General Sir Charles Howard to be Governor of Carliſle, in the Room of General Folliot, deceas'd.

Colonel Lord Robert Manners, to be Lieutenant-Governor of Hull, in the Room of General Jones, deceaſed.

Lieutenant Colonel John Barrington, to be Lieutenant-Governor of Berwick, in the Room of General Price.

Major Richard Bowles to be Lieutenant-Governor of Pendennis-Caſtle, in the Room of Colonel Waite, deceaſed.

Lieutenant-Colonel William Deane, to be Lieutenant-Governor of Jerſey, in the Room of Lieutenant Governor Beake, deceaſed.

We hear that an Officer of Diſtinction has lately been ſtruck off the Liſt of Officers, and is gone to France, for ſome late Tranſactions in one of the Publick Companies.

Laſt Week upwards of 150 Carpenters, &c. were diſcharged from Plymouth-Yard, and many more are expected to be diſcharged as ſoon as two Men of War that are building there are finiſhed.

An Order, we hear, is made, that all the Penſioners belonging to Chelſea Hoſpital, under fifty Years of Age, and in Health, ſhall be obliged to enter for Nova Scotia, or quit their Penſion.

Yeſterday an odd Affair happened among the Palatines at Lambeth, one of whom having ſome Words with another, called him *Thief*, a Name ſo odious, and a Crime to which thoſe People are unacquainted, that is was agreed by the whole Body to have him tried for the Offence; accordingly they erected a Court of Juſtice conſiſting of five in Number, who examined into the Affair, and after ſome Time ſpent, he was ſentenced to be hanged in three Hours. Two Hours he was allowed to pray, and one to ſing before his Execution. In the mean Time a Halter was provided, and the Execution had certainly been performed, had not the Captain, and ſome Gentlemen in the Neighbourhood been acquainted with it; who informed them, that ſuch Proceedings were contrary to the Laws of this Country, and the dangerous Conſequences that would attend ſuch unlawful Executions. The poor Fellow had but a few Minutes to live when the Captain was informed of it; and when he came the Halter was about his Neck.

We have an Account from Leghorn, that the Government of Genoa and the Malecontents of Corſica are equally diſpleaſed with the perplexed State of Things in that Iſland, inſomuch that Manifeſtos are under Conſiderations in both Places, with Intent to give the World clear and explicit Notions of their reſpective Sentiments; but that theſe will contribute rather to retard than promote that Pacification which has been ſo long expected, is the general Opinion of the Politicians there, and indeed a very ſtrong Fermentation, in the Spirit of Man, is more viſible than ever throughout all Italy.

London, July 29. The Hon. Thomas Villers, Eſq; is preparing to ſet out on an extraordinary Embaſſy to Vienna.

The Forces which arrived lately at Portſmouth in the Neptune Man of War from Gibraltar, were diſbanded laſt Wedneſday, and every Man had fourteen Days Pay allowed to carry them to their reſpective Homes. Moſt of them had been in that Garriſon 22 Years.

Roger Wincker, the Boatſwain of the Cheſterfield, in Conſideration of his faithful Behaviour, in ſecuring the Mutineers who run away with the ſaid Ship, is appointed Maſter Attendant of Woolwich Yard, a Place worth upwards of 300 l. per Annum.

London, Auguſt 3. Notwithſtanding the *Expectations* that were raiſed, with regard to the prodigious *Flow of Trade* that was immediately to follow upon the *Peace*, and the imaginary *new Value* that was thereupon given to the *publick Funds*, we have received pretty good Information, that the *Revenue of the C—ms* is hitherto increaſed ſo *inconſiderably*, that the *additional Sum* is hardly worth mentioning.——It muſt be own'd indeed, that the Quantity of our *Exports* nor *Imports*, is the great Mark of a *beneficial Trade*: But then the *Balance*, in which the former exceeds the latter, ought to appear in the *Coin* of the Nation to which we deal, as is the Caſe with regard to *Portugal*; and we do not hear that either *Spaniſh Piſtoles*, or *French Louis d'Ors*, are more common *now* than they were while the *War ſubſiſted*.

We are inform'd that Admiral Boſcawen will not return to Europe this Year; but that he is ordered to ſtay in the Eaſt-Indies, with a ſtrong Squadron, in order to ſee that the French reſtore every Thing, and act agreeable to the late Treaty of Peace.

Yeſterday it was ſtrongly reported that the Crew of one of his Majeſty's Ships ſtation'd on the Coaſt of Ireland had mutiny'd, kill'd their Captain and ſome other Officers, and run away with the Ship.

We hear the Parliament will meet the Beginning of November to diſpatch Buſineſs, that his Majeſty may go abroad early in the Spring.

We hear that on the Death of a late Knight of the Bath, there were found in his Cellar 10,000 Guineas, and a much larger Sum buried at the Head of a Pond in his Garden, beſides large Quantities of Bank Notes, all which were diſcovered to his Heir by the only Perſon that knew of theſe Hoards; and it's ſuppoſed that he will be made ample Amends for this extraordinary Inſtance of Honeſty.

London, Aug. 5. The Hon. Philip Yorke, Eſq; is appointed one of the commiſſaries for adjuſting the Boundaries, &c. of the Britiſh Colonies in America; for which Purpoſe he is expected in Town to receive his Inſtructions, &c.
